### **Task 3, Unit 6 – WWII Battleground Visual**

**Engaging Scenario:** “Born in a world which had had too much of war and waste, the sheer destruction of human life, the loss of home and gear, and all that makes life livable, very generally it has lost heart and hope. It had ceased to believe in anything but blank endurance, acceptance of whatever the selfishness of rulers, adventurers, and malice of the irrational might bring upon them”.

In a time of turmoil and death, you are travelling back in time to see World War II from the perspective of all of the people that were directly affected by the destruction, devastation, and death. You will experience the war from the perspective of (1) a soldier, (2) a teenager, (3) a mother, (4) a father, (5) a political leader. Choosing one of the deadliest battle grounds of the war, you will journal about your experiences as each of the perspectives.

**Task 3 Student Directions:** Part of understanding WWII is understanding the sheer amount of destruction that happened. Using your research from task 1, create a visual that represents the change your battleground went through during the war. Your visual can be anything you want (PowerPoint, Word, etc.), but should show the battleground before, during and after WWII. You are free to be as creative as you want with how you represent your battleground and the changes that happened because of the war.

Below is an example of the city of Prague in the Czech Republic pre-WWII, during WWII, and post-WWII.
