

## Topic 2.6 Environmental Consequences of Connectivity Graphic Organizer

**Learning Objective:** Explain the environmental effects of the various networks of exchange in Afro-Eurasia from c. 1200 to c. 1450.

**Annotate this map and complete this handout with notes from AMSCO – Bananas:** Ch. 9 p. 162; **Rice:** Ch. 10 p. 185; **Cotton:** Ch. 11 p. 205; **Bubonic Plague:** Ch. 12 p. 228; Ch. 13 p. 248 and **Ways of the World** Ch. 3 pgs. 129-137 and 170-179.

### Diffusion of Disease:

- Spread of the bubonic plague

### Diffusion of Crops:

- Bananas
- Rice
- Cotton
- Citrus

| <b>Effects of the Plague</b>   | <b>Effects of Champa Rice on China</b>  | <b>Effects of Bananas on Africa</b>   |
|--|---|---|
| <p>Which network(s) of exchange most facilitated the spread of this disease?</p> | <p>Which network(s) of exchange most facilitated the spread of this crop?</p> | <p>Which network(s) of exchange most facilitated the spread of this crop?</p> |

| <b><u>Positive</u> environmental effects of Networks of Exchange<br/>c. 1200 - 1450.</b> | <b><u>Negative</u> environmental effects of Networks of Exchange<br/>c. 1200 - 1450.</b> |
