European Industrial Revolution Document Analysis

Evaluate the effects of the Industrial Revolution on European society during the period 1750 – 1900 CE.

We will work on the DBQ skills of Document Analysis with this activity. So utilize the question above as you look at the documents, thinking about how you would summarize the document in terms of the question, and how you would analyze the source of the document as well. Fill in the chart below with your analysis.

Documents	Summarize the document. What does it show us about the effects of the Industrial Revolution on European Society?	Analyze an element of HAPP-Y: (Historical Situation, Audience, Purpose, Point of View) including <u>WHY</u> it matters to the interpretation of the source!
1: Bernhard's Report on Dale's Cotton Mills (1798)		
2: Knight's Working Man's Companion (1831)		
3: Hebergam's interview with, Sadler Commission (1832)
