

Sources of World War I and World War II

For this activity you will find a primary source that represents one of the causes of World War I and another source that represents one of the causes of World War II. The caveat - the source can't be something already used by the teacher. So you can't simply go to an old PowerPoint/Google Slides and find something off of one of my slides. You have to find something yourself! (A few websites below.)

Next, you will EXPLAIN HOW each of those sources represents World War I and World War II. Be prepared to share with a small group your source and explanation for each war!

Source: Cause of World War I	Source: Cause of World War II
Explanation of the Source	Explanation of the Source

Possible Websites: (There are a lot of other options, but these give you a place to start!)
